

It's all in store! - grade 3

Mid Oct. - Dec.

How the World Works

Lines of Inquiry:

- The composition of the Earth
- The formation of rocks and minerals
- The uses of rocks and minerals in our daily lives

Attributes:

Inquirers and Knowledgeable

Attitudes

Cooperation and Curiosity

Skills:

Research skills

Transdisciplinary Theme:

An inquiry into the natural world and its laws; the interaction between the natural world (physical and biological) and human societies; how humans use their understanding of scientific principles; the impact of scientific and technological advances on society and on the environment.

Central idea: The Earth is a resource we use every day

Key concepts:

Form, change, connection

Summative Assessment:

Students will share their research about a mineral, detailing its common uses, as well as fun facts about their mineral.

If you have any books at home that your child would like to share with the class, feel free to send them to school. As always, we value parent contributions, and should you be able to contribute to our unit in any way, please contact us- we would love to have you present to our classes!
