

February 7, 2018

Dear Parents,

We are excited to commence our fourth unit entitled: *From Smoke Signals to Cell Phones*. Within the framework of communications we will inquire into the ways in which we discover and express ideas, feelings, nature, culture and values. Our unit of inquiry focuses on how advances in communications change how we express ourselves and connect with one another.

We also examine how the use of technology influences the way we communicate and we reflect on how instant communication impacts the quality of our lives.

As students delve into several lines of inquiry, we aim to further develop their thinking, research and social skills. Foremost, during our pursuit of knowledge we encourage pupils to be risk takers and communicators. Finally, through active involvement, discussion and reflection we endeavor to develop our learners' curiosity and creativity.

We always welcome your suggestions and proposals to enhance our students' learning experience. Should you desire to contribute in any way, we remain receptive. Please do not hesitate to communicate with us.

Thanking you in advance for your continued involvement in all levels of your children's scholastic experience.
