Clearpoint Elementary Mission Statement

Clearpoint is a bilingual community school where the partnership and respect of its members are valued. Parents, community members and staff work together to provide the best possible learning environment for every student. The result is that Clearpoint is a school where there is a sense of family and pride in belonging.

Our mission is to:

- foster the discovery and development of the unique identity and positive self-concept of each child.
- promote students' academic achievements in a safe environment and to help each child reach his/ her potential in all areas of development: social, moral, physical, intellectual, cultural and emotional.
- provide each child with the tools necessary to be a life-long learner in a changing world.

International Baccalaureate Mission Statement

The International Baccalaureate aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

To this end, the organization works with schools, governments and international organizations to develop challenging programmes of international education and rigorous assessment.

These programmes encourage students across the world to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be right.

IB learner profile

The aim of all IB programme is to develop internationally minded people who, recognizing their common humanity and shared guardianship of the planet help to create a better and more peaceful world.

IB learners strive to be:

Inquirers They develop their natural curiosity. They acquire the skills necessary to conduct inquiry and research and show independence in learning. They actively enjoy learning and this love of learning will be sustained throughout their lives.

Knowledgeable They explore concepts, ideas and issues that have local and global significance. IN so doing, they acquire in-depth knowledge and develop understanding across a broad and balanced range of disciplines.

Thinkers They exercise initiative in applying thinking skills critically and creatively to recognize and approach complex problems, and make reasoned, ethical decisions.

Communicators They understand and express ideas and information confidently and creatively in more than one language and in a variety of modes of communication. They work effectively and willingly in collaboration with others.

Principled They act with integrity and honesty, with a strong sense of fairness, justice and respect for the dignity of the individual, groups and communities.

Open-minded They understand and appreciate their own cultures and personal histories, and are open to the perspectives, values and traditions of other individuals and communities. They are accustomed to seeking and evaluating a range of points of view, and are willing to grow from the experience.

Caring They show empathy, compassion and respect towards the needs and feelings of others. They have a personal commitment to service, and act to make a positive difference to the lives of others and to the environment.

Risk-takers They approach unfamiliar situations and uncertainty with courage and forethought, and have the independence of spirit to explore new roles, ideas and strategies. They are brave and articulate in defending their beliefs.

Balanced They understand the importance of intellectual, physical and emotional balance to achieve personal well-being for themselves and others.

Reflective They give thoughtful consideration to their own learning and experience. They are able to assess and understand their strengths and limitations in order to support their learning and personal development.

Language Philosophy

Clearpoint Elementary's language policy represents an overview of our values and beliefs on language acquisition and instruction. We embed the IB philosophy on language while meeting the Lester B. Pearson school board and the Quebec Ministry of Education language requirements.

The Provincial Ministry's (MELS) general objective in language acquisition is:

- To develop the students' capacity for oral (speaking and listening) and written (reading and writing) communication so as to enable the learner to express his or her view of the world. The following competencies are evaluated three times a year.
 - a. The learner uses language to communicate and learn
 - b. The learner reads and listens to spoken, written and media texts
 - c. The learner produces written and media texts

Clearpoint Language Mission Statement:

At Clearpoint we believe that every teacher is foremost a language teacher. Language is linked to our identity and values. We are a bilingual school comprised mostly of an Anglophone population within a French culture. Our reality translates in the following context: students are educated in a 50% English and 50% French instruction, from kindergarten to grade six. Pupils benefit from exposure to a rich and diverse culture through a community that supports bilingual language learning and diversity. This model supports our beliefs in developing internationally-minded learners by promoting the IB learner profile attributes.

We believe that a language is a culture. Therefore the acquisition of more than one language expands our view of the world and promotes open-mindedness. The learner profile together with the five essential elements of the program, (knowledge, concepts, skills, attitudes and action) represent a foundation for planning, teaching and assessing in language (*Making the PYP Happen: A curriculum framework for international primary education, 2009*).

Clearpoint teachers structure the learning environment to facilitate risk-taking within the students' day. This provides a working platform to encourage the learners to take charge of their learning and develop the attitudes of cooperation and independence. Students investigate and communicate the results of their inquiries through a variety of means, including the use of technology and media: laptops, iPads and Smart Boards.

Teachers base their language instruction on their students' inquiries. In our bilingual program, English and French speaking instructors along with the school specialists regularly consult and collaborate on all aspects of teaching and learning. We work together to ensure that learning happens within the context of the Transdisciplinary Themes and through the lens of the Central Ideas.

Our Profile

Clearpoint Elementary provides a bilingual model of instruction wherein students receive equal instruction in both English and French. Subjects taught in English are: English Language Arts, Mathematics, Physical Education, Dance, Music and Moral and Religious Education. Subjects taught in French are: French, Social Studies, Science and Technology and Art. The program focuses on the development of the whole child by providing meaningful opportunities for growth in knowledge, skills and positive attitudes.

- All students, from Kindergarten to Grade 6 follow the Full-day bilingual program (one day in French & one day in English)

Grades 1 through 6 are organized by Cycle: students receive two years to master the competencies that are mandated by our program of education.

- Cycle 1: Grade 1 & 2
- Cycle 2: Grade 3 & 4
- Cycle 3: Grade 5 & 6

School Portrait

	2013-2014
School Capacity	450
Program (s)	Bilingual Program & IB PYP
Total Number of Students Registered	318
Total Number of Students on Individualized Education Plans	55
Number of Homeroom Teachers	17
Number of Integration Aides	12
Number of Specialists	07

Language Assessment

Language assessment is outlined in our Assessment Policy. All students write provincial examinations in English and French in Grades 2, 4 & 6. The results of these tests become part of our school success plan. They are reported annually to the community through the school's annual reports.

Running Records (PM Benchmark Kit)
Fiche d'observation individualisée en lecture.
(La Trousse d'évaluation en lecture GB+)
END OF YEAR TARGETED LEVELS 2012-2013

Cycle 1 – All students
FRENCH : Immersion Program
FRENCH & ENGLISH: Bilingual Program

English: Year One : Level 12 (90% - 95%)	<i>with satisfactory comprehension</i>
Year Two : Level 18 (90% - 95%)	<i>with satisfactory comprehension</i>
French Immersion: Year One : Level 8 (90% - 95%)	<i>with satisfactory comprehension</i>
Year Two : Level 14 (90% - 95%)	<i>with satisfactory comprehension</i>

Cycle 2

Only students scoring below their targeted level will be assessed in English and French until they reach their targeted level.

ENGLISH

Year One : Level 22 (90% - 95%) *with satisfactory comprehension**

Year Two : Level 26 (90% - 95%) *with satisfactory comprehension* *It is understood that students in the Immersion Program may not be at level 22 in English by the end of year one, however level 26 remains the targeted level for the end of year two, cycle two.

FRENCH

Year One : Level 19 (90% - 95%) *with satisfactory comprehension*

Year Two : Level 22 (90% - 95%) *with satisfactory comprehension*

Cycle 3

Only students scoring below their targeted level will be assessed in English and French until they reach their targeted level.

ENGLISH

Year One : Level 28 (90% - 95%) *with satisfactory comprehension*

Year Two : Level 30 (90% - 95%) *with satisfactory comprehension*

FRENCH

Year One: Level 26 (90% - 95%) *with satisfactory comprehension*

Year Two : Level 30 (90% - 95%) *with satisfactory comprehension*

Needs Analysis

Clearpoint Elementary is an inclusive school with the intent of providing equal access to the IB PYP for all students. We have in place specific policies which determine language of instruction, mother tongue, special needs and second language support. All this is in view of enhancing the language development of all students.

Language of Instruction:

- The primary languages of instruction are English and French. Every classroom teacher is either a certified English Language Arts teacher and/or a certified French Second Language teacher.
- A full-time English resource teacher and a half-time French resource teacher work with students from grades 3 to 6 to support English and French instruction on a pull-out basis to increase fluency and comprehension. These essential knowledge will allow lifelong literacy and learning as per the expectations of MELS and mirrors the philosophy of the PYP.
- A half-time resource teacher has been designated to work with Kindergarten to Grade 2 students to support language development. We have in place an early identification and intervention program which addresses the basic needs of pupils in difficulty. This allows us to intervene in a timely fashion, facilitating their language acquisition and development within the PYP framework.
- Further resources are provided to students from out of province: *Francisation* addresses the needs of pupils who have little knowledge of the French language and/or who have not previously been exposed to French.
- We implement the MELS program for reading and writing instruction in an integrated fashion. The language acquisition process involves speaking, listening, viewing, writing and production of media.
- In Clearpoint's Success Plan, goals were intentionally selected to focus on the development of oral and academic language needs of students, regardless of language background.
- Integration Aides who are trained to work with students with Special needs support our team of Language Teachers in ensuring that every child regardless of academic/social capacity are involved in language acquisition whether it be by oral means or by through the use of assisted technology.

- Clearpoint is fortunate to have a trained Special Needs teacher who works with a team of Integration Aides in creating an environment of support in implementing language acquisition by any and all means: tactile, digital, print and action.
- Students in significant language difficulty are referred to our Student Services Support Team (comprised of the Principal, Resource Coordinator, Resource Teachers, Psychologist, Social Worker, Special Needs Consultant, Speech and Language Consultant and Family Support Treatment Team Technician) for discussion and evaluation to determine the best approach and practices to create a concrete plan to support each student in an individualized basis. Students are identified with specific codes based on needs and integration support is provided where warranted. This is done annually as well as on a needs basis.

In addition to providing students with a comprehensive bilingual program, Mandarin is offered to students of grades K-2 as an extra-curricular activity after school twice a week. The opportunity of acquiring a third language is an added enrichment that is in line with our mission of creating life-long learners.

Resources: Language Rich Environments

Clearpoint Elementary teachers strive to create text and media rich environments in both languages in all areas: the classroom, the computer lab and in the library. Our digitalized library is comprised of over eight thousand English books and five thousand French books. We are privileged to have the largest elementary school library within our school board. Our school community is encouraged to read daily in both languages to our pupils. Furthermore we benefit from a high volunteer involvement in terms of reading support from our community.

Procedures for Language Policy Maintenance

The language policy steering committee, including teacher representatives, the PYP coordinator and administration, will review the language policy at the beginning of each academic year to update the policy based on current demographics and practices.

Pertinent changes will be communicated to the school community through the School Leadership Team and Staff Council and Governing Board. The language policy will be made available on the updated school website.

What do we want students to know?

Our curriculum is centered upon a constructivist approach which complements the IB philosophy. Language learning at Clearpoint is planned using the PYP Language Scope and Sequence continuum along with the [Quebec Ministry of Education's Progression of Learning](#) guidelines.

Teachers apply the best practices and model strategies for all students in order to develop life-long literacy:

"The ELA program is first and foremost a literacy program in which speaking, listening, viewing, writing and production of media texts are learned in an integrated fashion. This integration lies at the core of the development of critical literacy...[There] is a connection between the development of essential knowledge about language and texts, and the language learning processes that mobilize this knowledge, giving it context, purpose and function.

Students learn...through active engagement with language in situations where they have the opportunity to both enjoy spoken, written and media text, and create them."

Ministry of Education English Language Arts Program

The PYP has identified three strands –oral language, visual language, written language—that are learned across and throughout the curriculum, with each strand being an integral component of language learning. Each strand has been considered from both the receptive aspect—receiving and constructing meaning, and expressive aspect—creating and sharing meaning (figure below). While the receptive and expressive aspects are clearly reciprocal, the processes involved in receiving and constructing meaning are different from those involved in creating and sharing meaning. The learner's ability to understand language and use it effectively varies in different situations and from one individual to another. For this reason, it is important to distinguish between these two modes of learning and the demonstrated proficiencies associated with them. For example, a learner may listen attentively and reveal understanding through written or visual representations, but may require support to communicate ideas orally in the classroom.

The acknowledgment of both the receptive and expressive aspects of the language strands serves to ensure that teachers will be aware of the need to provide a balanced program. Opportunities to listen to and receive ideas and information in oral form should be balanced with opportunities to express ideas orally. In visual language, learners will view and interpret other people's work and create and share their own presentations. The interwoven receptive and expressive aspects of the oral and visual strands are represented in one continuum for each strand. In written language, learners will experience reciprocal gains as they develop skills and

understanding in reading and writing. Separate continuums have been developed for reading and writing aspects of the written language strand.

Strand	Receptive—receiving and constructing meaning	Expressive—creating and sharing meaning
Oral language	Listening ←	→ Speaking
Visual language	Viewing ←	→ Presenting
Written language	Reading	Writing

Making the PYP Happen, 2009

At Clearpoint Elementary School we aim to develop effective, internationally minded communicators who are able to manage their learning. We accomplish this goal through listening, reading and writing. The outcome culminates in the integration of our transdisciplinary language. This translates into other disciplines such as in mathematics, science, social studies, arts, personal, social and physical well-being and technology.
