403 – A Whale of a Project! As part of their unit “Get The Dirt On Waste” students in 403 designed and created a giant blue whale. They then collected plastic from around the school, attaching it to the whale’s body. This helped to demonstrate the problems that exist with the vast amounts of plastic waste floating around in the world’s oceans. Great job 403!!

Junglesport is coming in January: Back again for another year, Junglesport is coming to Clearpoint Elementary from January 14 -18. Permission forms were sent home to parents last week, and must be returned signed by parents in order for students to participate. We will again be offering a Parent Night on Wednesday, Jan. 16, from 6:00 – 8:00 p.m. For more information see the info package posted on the school website.

Congratulations to all the students who participated, and a big thank you to the student refs, as well as Mr. Bill and Mrs. Yates. Everyone gets a nod for the creativity of the team names too! Well done everyone!
