IB NEWSLETTER

This week, we are celebrating Zara, Aileana, and Juliet (gr. 4) for their kindness and initiative in making recess a little brighter for their younger peers. During recess, the girls noticed two Grade 1 students standing alone and asked if they had anything to do or anyone to play with. When the children said no, Zara and Juliet quickly found a ball and a hula hoop and created a fun game for all of them to enjoy together. Their thoughtful actions not only helped make recess more fun but also showed the younger students that they are never alone at school. They have since started a "Kids Club" where they make sure everyone feels included at recess! Thank you, Zara, Aileana, and Juliet for embodying the caring and inclusive spirit we value so much!
