→ **IB NEWSLETTER**

After students in 402 were shown a video of the environmental impact of a cargo ship colliding with an oil tanker in the North Sea, they all decided to take action and make posters to promote an environmental clean-up in their own surroundings. Students have been picking up ALL the garbage in the school yard over the last few. When they realized how much garbage had accumulated in a relatively small space, they took it upon themselves to picket at lunch with handmade signs promoting the importance of this type of clean-up. After school some students even went to the Lakeshore to clean up by the shore. They are so excited about starting a club and having had a positive impact on the environment that they just want to keep going so they will be working with Ms. Tubbeh to determine their next "Going Green" initiative for the coming weeks! Way to go grade 4!

Click on the link above to see how you can share your child's action. As well, learn more about the amazing art project with Group 303 and 403 that has resulted in artwork being currently displayed at the Victor Rose Café in Pointe Claire!
